

Simplify Your Check Acceptance

with
Check Conversion Plus

Accepting checks is as easy as accepting a credit card, thanks to our exclusive Check Conversion Plus program. This innovative service automates check acceptance at the point of sale. With each authorized check, funds are electronically processed and deposited into your merchant account—that means fewer trips to the bank, reduced bank fees, and less paperwork.

How it Works:

- Customer writes check
- Clerk accepts check, reviews it, writes in the necessary information
- Check is run through a check imager
- Check information is sent through the terminal for authorization
- Customer signs receipt
- Check is given back to the customer
- Image is stored electronically
- Funds are automatically deposited to the merchant account

With Check Conversion Plus, you'll receive these benefits:

- **State-of-the-art technology offers complete imaging**
- **Automates the check process and expedites funds availability**
- **Program compatibility with several types of terminals and printers**
- **Fewer trips to the bank as converted checks are deposited directly**
- **24/7 transaction reporting via the internet**
- **Allows consolidation of funds for multi-location merchants**
- **Conversion of business and consumer checks**
