Overview

The gateway supports three separate types of recurring billing options.

1. Traditional

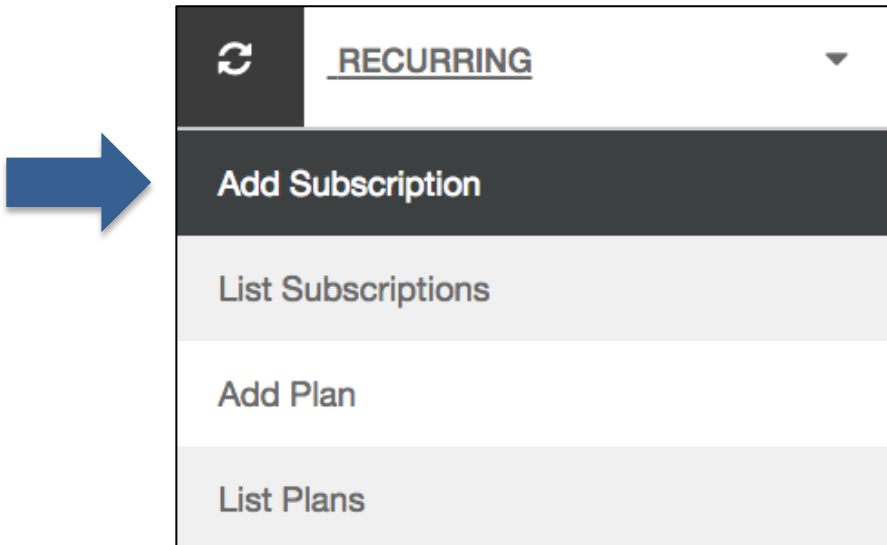

- The merchant will set up and bill a single cardholder, via credit card or ACH e-Check, a specific dollar amount on a specific day for an indefinite or specified period of time.

2. Expanded/Plan Recurring Billing

- The merchant creates a plan and then can associate an unlimited number of cardholders with the plan.
- The plan approach provides simplicity when the time comes to update the plan.
- When the merchant changes the dollar amount to be charged or the timing of the charges all associated cardholders are affected immediately.

How to edit established recurring billing for a single cardholder or a checking account

Step 1: Click [Add Subscription](#) under [Recurring](#) from the [Main Menu](#).

Step 2: Select [Credit Card](#) or [Electronic Check](#) as the type of recurring transaction to continue.

Note: this option will only occur if you have both payment methods available.

Step 3: Enter customer information for **Credit Card** or **Electronic Check**. Click **Continue to proceed**.
