

Appointments

Automate your business, so you can focus on serving your clients and working smarter, not harder.

Features

Accept Payments Anywhere

Accept payments at the booth or on-the-go.

Double Booking

Create concurring appointments to maximize client satisfaction and increase revenue.

Recurring Appointments

Automate recurring appointments for repeat customers.

SMS and Email Reminders

Automatically send appointment reminders.

Setup Cancellation Policy

Reduce no-shows and protect your business from lost revenue.

Loyalty Program

Build and maintain customer loyalty with a rewards system tailored to your business.

Inventory Management

Add and track products, vendors, and auto-generate purchase orders.

Commissions for Products & Services

Customize commission amounts by employee; easily accessible in Reports app.

Group Appointments

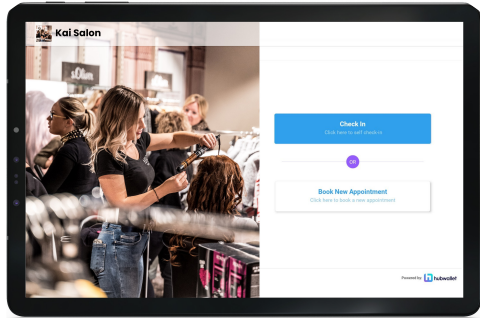

Easily schedule group appointments and take deposits.

Client Profiles

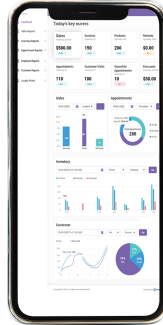

Manage detailed client information, track appointments, and purchase history.

While you focus on your clients, Appointments works behind the scenes to help you manage your schedule, take payments, and empower your team.

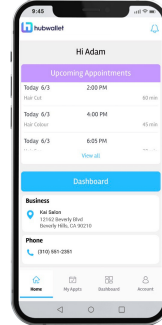

Check-In App

Streamline operations and free up your workforce by allowing customers to check-in for existing appointments or to schedule a new one instantly.

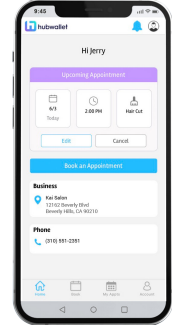

Report App

Analyze profits, view key sales numbers, and track appointment data.

Employee App

View appointments and sales on a personalized dashboard.

Customer App

Customers can book, view, and modify appointments anytime.
