

Why NMI is the right gateway choice

ANY PAYMENT, ANYWHERE

NMI Gateway capabilities

NMI offers the most intuitive and transparently brandable omnichannel payment gateway on the market. Processing over 1.8 billion transactions totaling \$150+ billion a year, NMI gives you total control over affiliates, agents and merchants while enabling them to unleash new sources of value in the changing environment — all while putting your brand in front of your customers.

About NMI

NMI is a leading global full commerce enablement platform, processing more than \$150 billion in payments annually. We enable payments for over 2,800 partners and over 250,000 merchants around the world and across the entire commerce ecosystem: online, in-app, mobile, in-store, unattended and whatever's next. We're constantly innovating in order to power the next era of payments, building in the latest technology for ISVs, ISOs, Banks and Fintech Innovators to focus on what they do best. NMI has offices in the US and UK and serves global customers.

To find out more how unified commerce can create value for you, visit www.nmi.com
