Sales Agent Position Script

I want to be upfront about compensation so we can ensure it's a good fit before taking up too much of your time.

Our compensation plan is built around **lifetime monthly residual income**. Every merchant that activates service with us will generate between **\$100 - \$1,000+ per month** in profits, and you'll receive **50% or more of that** for the lifetime of the merchant using our services, paid on or about the 28th of each month.

You will also receive between **\$100 - \$700 in one-time commission** when the account is activated, plus opportunities to earn **hundreds or even thousands more** on hardware, software, and value-added services like business loans, consumer finance, payroll, social & digital marketing, ATMs and more.

Even if you don't close the sale, you still earn **\$25 - \$50 just for qualifying the merchant by completing our needs analysis and collecting a copy of their most recent processing statement so we can build & present a comparison quote.**

What this position **DOES NOT** include is:

- Salary, hourly, base, draw or benefits.
- **IT IS A 1099 independent contractor role, NOT a W2 Employee role.**

Are you comfortable with income entirely based on commissions, bonuses and lifetime residual income under the right circumstances?

(If yes, continue to **ABOUT VALUED MERCHANT SERVICES** below. If no, mark "not interested.")

Would you like to earn commissions, bonuses and lifetime residual income simply by referring accounts to us from your existing networks, connections or clientele?
