

NMI TAP 2 PAY = “CLOUD COMMERCE” APP

HOW TO:

- ✚ Merchant must have either an iProcess or VT account.
- ✚ VMS support, go to NMI partner portal and enable Tap to Pay for merchant, activate service.
- ✚ Merchant downloads Cloud Commerce App and enters partner code: **CC_8bFEes1a**, then they enter their **username and password from their VT or iProcess**.
- ✚ They can now run NFC/Tap 2 Pay payments.
- ✚ Note: If the customer's NFC function is having trouble, merchant will need to log in to iProcess or the VT to hand key the payment.
- ✚ Pricing Options:
 - 10¢/txn, or
 - \$5/device/mo and 5¢/txn (this would be best for merchants running more than 100 transactions/mo. on one device)
- ✚ Text receipts:
 - Not available on the app. (SDK version only)
- ✚ Email receipts:
 - Yes.
- ✚ Processors allowed
 - TSYS
 - FD Rapid Connect
- ✚ More info at: <https://support.nmi.com/hc/en-gb/articles/34841368870289-Tap-to-Pay>

Flexible Pricing Options

Choose What Works For You

1. **Per Transaction Model** - *only when tap is used*
\$0.10 per tap

Or

2. **Subscription Model** - *monthly fee per device plus a transaction fee that applies only when tap is used*
\$5.00 per device/month + \$.05 per tap

Getting Started

Launch in Minutes – Literally

For Cloud Commerce App:

1. Download app from Play Store for Android
(AppStore for iOS coming September 2025)
2. Enter partner code: **CC_8bFEes1a**
3. Log in with NMI credentials
4. Start accepting payments

For SDKs:

- Visit NMI [Developer Portal](#) for integration guides
