

How to enable cash discount in the iProcess app.

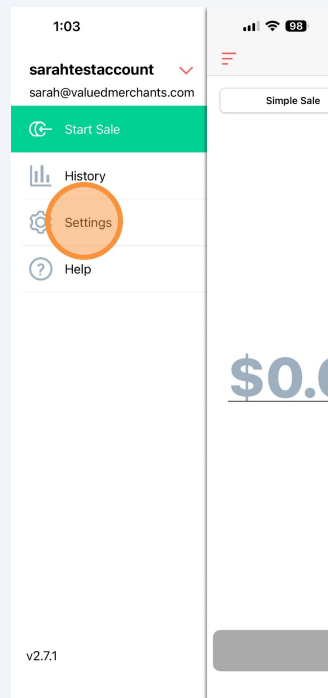

Once you've downloaded the "iProcess" App from the App Store or Google Play, login with your credentials and proceed as shown below.

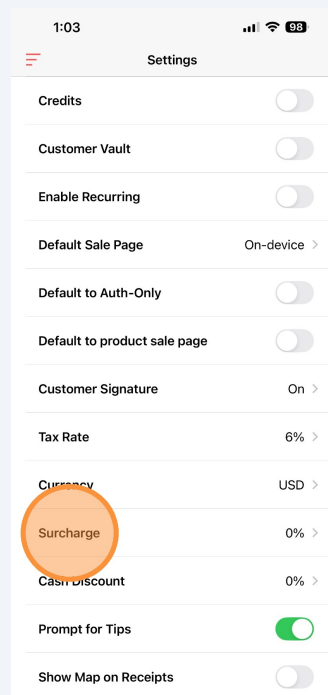

1 Tap the three lines.

2 On the left side, tap "Settings".

3 Tap "Surcharge".

- 4 Type the Cash Discount Rate which you want applied to transactions. (i.e. 3.99%)

< Surcharge Save

0.000 %

A surcharge will add on a specified percentage on top of all sale transactions processed in the app. Please ensure you are following all local laws in regards to surcharging before using this feature.

You may also change how this displays on receipts in iProcess by changing the text below.

Surcharge

Surcharge will be calculated for all transactions, but it will only display in gateway reporting for swiped transactions through headphone jack-connected reader or keyed in transactions.
