Square Invoices allows you to:

Accept payments instantly

75% of Square Invoices are paid the same day.
Accept credit card, debit, ACH, Apple Pay, or
Google Pay.

Real-time tracking

Stay up to date on whether an invoice is paid,
unpaid, or overdue, all in one location. Keep track
from anywhere - on your laptop, tablet or phone.

Recurring invoices

Set up recurring billing on a daily, weekly, monthly
or yearly schedule so you can charge customers
on a recurring basis

Estimates

Provide customers with an estimate they can
approve from anywhere. Easily convert accepted
estimates to invoices with one click.

Save more time with Invoices Plus

Custom Invoices Templates

Save and reuse invoice templates so you
don't need to start from scratch each time

Milestone-based Payment Schedules

Schedule multiple payments for any job by
setting up a payment schedule based on
specific milestones or phases of the job

Multi-package Estimates

Offer multiple packages of items and
services from a single estimate and spend
less time on scoping and pricing projects
with your customers

Auto-Conversion of Estimates to Invoices

Instantly convert accepted estimates into
invoices to easily request payment from
your customers

Custom Invoices Fields

Create and select the placement of
custom invoice fields to provide
additional details to your customers
